WHY OUR BODY NEEDS ANTI OXIDANT ALKALINE WATER?

Human being born with blood pH 7.35 - 7.46 (Healthy Blood) As we grow up, we drink, we breathe and eat too much acidic food, beverages, pollution and even acidic water, no mineral water.

ORP

This acidic wastes neutralize and clean our body after drinking Anti Oxidant Water regularly. So now a days we need more alkaline mineral water against acidic foods, Acid, air pollution and stream.

This information is very important for you and your life. We are surrounded by water from all sides but we can't drink all water. It is very essential to know your drinking water. Our body contains 80 to 90% of blood. The water which we drink dissolves in our blood and runs through out whole body.

In today's world everyone has become health conscious. Each and every house must be having a water purifier to get good drinking water.

This is why alkaline Water is more easily absorbed by the body than untreated tap and purified water. Alkaline Water quickly permeates the body and blocks the oxidation of biological molecules by donating its abundant electrons to active oxygen, enabling biological molecules to replace themselves naturally without damage caused by oxidation which can cause diseases. So this was the information about good quality drinking water, even then we are drinking acidic water whereas we should drink only.

PH in human blood should be between 7.35-7.74 and if pH falls below 7.35 pH we are immune to acidosis which is the main cause for all diseases.

What ever we drink mixes with the blood and acquires the pH level of water. Thus when PH of water is more than 7.74 pH i.e. 8.5 pH to 9.5 pH we are drinking Anti Oxidant Alkaline water.

BENEFITS OF ANTI OXIDANT ALKALINE WATER

Prevents Reproduction of germs and virus.

Making tea or coffee with alkaline water the acids in it are destroyed, Hence no acidity

Neutralizes Acidic Wastes & Uric Acids

Produces large quantities of hydrogen and oxygen.

Anti-Aging Effects

Powerful Anti-Oxidants & De-toxifier

Provides more energy and increases metabolism.

Increases Metabolism

Restores pH Balance In Body

Removes all types of toxins from our body.

Improves Immune System

Smaller Water Cluster Size

Cooking food by alkaline water retains minerals and taste of the food.

Supplies Essential Minerals(Ca,Mg,K,Na)

Reduces Cholesterol & Blood Sugar Level

Improves Blood Circulation

It is useful for treatment of diseases like obesity, psoriasis, arthritis, osteoporosis

high blood pressure, and even cancer.

According to Dr. Otta Warberg who is noble prize winner for discovering cause of cancer,

"No disease can exist in an alkaline environment"

Thus this water is also called Miracle water, medical water, magic water and Slimming water. Today many people have started drinking green tea as an Anti Oxidant tea.

HEALTHY WATER

pH 7.5 to 8.5 (Best for regular drinking)
pH 8.5 to 10 (As per individual need for drinking.)

The Benefits of Alkaline water

why should we drink Alkaline ionizer water?

Drinking alkaline ionized water every day the most effective than green juice. Especially, pure ionized water is alkaline ionized mineral water. It has a ph level of over 7.0 It is very beneficial because it is easily absorbed in the body and enhances body metabolic rate and better body resistance. Water ionized separates various minerals in water into positive ion (alkaline) that is good for health and negative ion (acid) that is good for skin care. Specially, it is maintaining various health function.

Some of the benefits of Alkaline Water

- Improves hydration.
- Helps promote detoxification.
- Powerful source of antioxidants.
- Helps to absorb nutrients more efficiently.
- It is highly oxygenated
- Ionized water makes fantastic tea and coffee - it also boils faster.
- Help to balance alkalinity of body
- Food cooked with ionized water taste better and retain more nutrients.

Cooking Rice

Before getting rice cook: Wash RICE with ACIDIC water and soak it in ALKALINE water for 10-15 min. When the rice is completely cooked it becomes ionized rice. Which has a good polish just as cooked glutinous rice & maintaining its freshness for a long period of storage.

Hangover

Alkaline water is good for hangovers, when taking it before going to sleep or when the stomach is empty in the morning.

Coffee & Tea

Remove bitterness of coffee and giving fragrance to both coffee & tea. Make excellent taste.

Cocktail

An ice cocktail in alkaline water makes your drink fast softener & smoother.

cooking with Alkaline water

Eliminate tishy smell fish & non-vegetarian foods.

Swelling Power

It has a power to soften substances.

Thermal

It doesn't take a long time to boil.

Dissolving

It dissolves and draws out substances.

ENVIRONMENT FRIENDLY WATER

Over pH 10.5 (Not Suitable for drinking)

What is Strong Nanshe Water?

Strong Nanshe Water is a type of electrolyzed water with an electron potential produced by the cathode. In general, the pH is over 11.0 and the ORP is -700mV.

Strong Nanshe water packs an effective cleaning effect as a detergent preserving hygiene in your daily life.

- To clean cutting boards, knives, and dishes
- To remove slime and stains on the floor
- To remove stains from coffee, soy sauces
- To use for washing clothes (reduces the need for laundry detergent)

- To sterilize vegetables
- To Remove toilet stains

- Astringent vegetables in strong alkaline for 20-30 min.
- To Remove the smell of fat.

Wash vegetables & fruits with strong alkaline water for a long storage period.

- Cleaning Power
It has a strong effect to dissolve and clean materials.
- Dissolving Power
It has a strong power to dissolves and draws out substances.
- Super Swelling Power
It softens materials quickly.
- Thermal Conduction
It doesn't take a long time to boil.

ACIDIC WATER

Sanitary Water

Below pH 3.0 (Not Suitable for drinking)

What is Strong Acidic water?

Strong Acidic Water is a type of electrolyzed water produced by the anodes.

Excellent cleaning and disinfecting power Strong acidic water has excellent disinfecting power that helps preventing food poisoning. Use it to clean & Sterilize your fruits, vegetables, meat and cookware.

- To sanitize knives, cutting board and dish towels
- To disinfect your hand.
- To disinfect your toothbrushes
- To clean your skin

For boiling pasta and making batters for frying. Noodles and pasta will take on a brilliant shine and improved texture as a result of boiling in acidic water. Acidic water will also enhance the crispy texture of fried foods.

As a cleaner.

Acidic water is effective in cleaning stains on dishes, cups, glasses, even bathroom tiles.

Cleaning Power

It has the power to purify substances.

Astringency

It has the power to tighten substances.

How Does Nanshe Ionizer Works

- Tap water passes through Pre Filter to take out Chlorine, lead and other heavy metals.
- Purified Water
- Pass through 5 PLATINUM COATED TITANIUM PLATES
- Splits Acidic & Alkaline ions through respective outlets.
